Building In The Building

Archini 延续经典建筑设计语言，应用于家具设计之中。瓦片椅以中国传统文化中的“瓦片”为灵感来源，打造出一把兼具功能性与文化意蕴的弯板座椅。

Inspired by traditional Chinese culture, the Tile Chair takes its form from roof tiles, creating a bentwood seat that combines functionality with cultural significance.

TILES

INTRODUCING TILES

DESIGN BY COLLECTIVO

瓦片椅背与座板通过优雅流畅的曲面模拟瓦片形态，呼应传统建筑屋顶的灵动之美，以简约的当代语言重构其形式。以家具为载体，唤醒人们对传统文化的记忆与珍视。

The chair's backrest and seat plate simulate the shape of tiles through elegant and smooth curves, echoing the dynamic beauty of traditional rooftops. Using a contemporary minimalist language, the design reconstructs this architectural element.

叠放瓦片椅，犹如瓦片层层叠叠，减少运输成本的同时，整装的形式可以为用户提供良好的产品体验感。另外，采用轻量化与可塑性的弯板材料，契合可持续发展的理念，使瓦片椅整体轮廓具有建筑的方感之美，内部曲线蕴含人体工学设计。

Stacking the Tile Chairs resembles the layered arrangement of tiles, reducing transportation costs while providing a well-packaged experience for users. Additionally, the use of lightweight and malleable bentwood material aligns with sustainable development concepts. The overall structure presents a geometric aesthetic reminiscent of architecture, while the internal curves incorporate ergonomic considerations.

The frame of the Sparse Branch Lounge Chair mimics the irregular yet natural lines of withered branches, maintaining a balance between freeform growth and structural stability.

采用多种材料的巧妙结合，木材、金属、软包，契合目前经典且流行的包豪斯风格。通过不同材质的穿插与搭配，极大程度上丰富了椅子的视觉效果。

双皮奶沙发
Design by Collectivo 2025

Building In The Building

双皮奶发源于顺德，也是 Archini 品牌的起源地，我们希望通过双皮奶的温润与甜蜜，将味觉记忆转化为空间情绪；让沙发呈现出一种柔滑、慵懒的蓬松质感，犹如甜品表面凝结的轻薄褶皱，透露出自然呼吸之感。

Originating from Shunde, where Archini was founded, double-skin milk (a traditional Cantonese dessert) serves as inspiration for this sofa. Just as the dessert embodies warmth and sweetness, the sofa transforms taste memories into spatial emotions, presenting a smooth, plush, and relaxed texture. The gentle folds on the surface evoke the sensation of light, airy layers forming naturally, enhancing the feeling of softness and breathability.

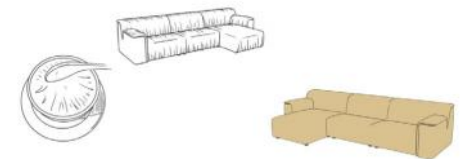

DOUBLE SKIN MILK

INTRODUCING DOUBLE SKIN MILK

DESIGN

扶手与靠背的设计细节，具有方圆之美，既流露出商务风范的干练与大气，又不失休闲时光的温馨与惬意。

The armrest and backrest exhibit a refined balance of square and round aesthetics, striking a harmony between professional sophistication and leisurely comfort.

沙发的靠背与座垫部分采用双层坐感设计，上部为柔软的丝绵和羽绒层，能够完美贴合人体曲线，带来舒适的坐卧体验；下部则是坚固稳定的支撑层，确保了沙发的整体稳固性与持久耐用性。这种双层结构设计，既能够保障沙发的极致舒适度，又兼顾了结构的牢固性，令用户在沉浸于舒适坐感的同时，也能感受到沙发给予的坚实支撑。

The backrest and seat cushion feature a dual-layer comfort system: the upper layer, made of soft silk cotton and down feathers, conforms perfectly to the body, providing a cozy seating experience. Meanwhile, the lower layer offers firm and stable support, ensuring durability and structural integrity. This dual-layer design guarantees optimal comfort without compromising on stability.

INTRODUCING SAIL

DESIGN
BY COLLECTIVO

设计师提炼出帆在风中前行时高低错落的轮廓，以及船由下而上兜起的圆弧形态。靠背软包与屏风曲线错落交织，相互呼应，形象的应用于云帆沙发的靠背和座面上，浑然一体，十分具有艺术美感。

The designer captures the undulating contours of sails billowing in the wind and the upward curves of a ship's hull. The interwoven lines of the backrest cushion and screen create a seamless visual dialogue, artistically integrated into the sofa's design.

云帆沙发的模块化十分灵活，组合形式多样，为用户提供了丰富的选择。另外，产品上下为分体形式，用户可以根据坐姿随意调整靠背前后距离，满足个性化需求。其中，屏风配重 6 公斤避免脱落风险的同时，任意组合的模块化设计还能减少运输成本。

Highly flexible and modular, the Sail Sofa offers a variety of combinations to meet different user preferences. The upper and lower sections are separate, allowing users to adjust the backrest distance freely according to their sitting posture. Additionally, the screen weighs six kilograms, preventing accidental tipping while reducing transportation costs through modular design.

Building In The Building

" 云朵 " 边几的设计灵感源于自然界中最轻盈灵动的意象——云。设计师捕捉云层流动的瞬间姿态，将天空的温柔与自由凝固成一件可触摸家具。

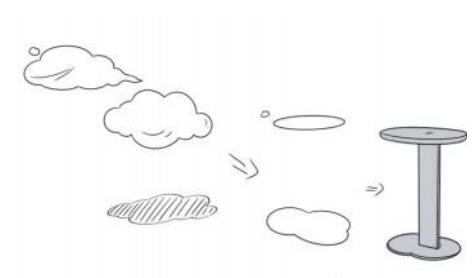

Inspired by the lightest and most fluid element in nature—clouds—the Cloud Side Table captures the fleeting movements of clouds, transforming the softness and freedom of the sky into a tangible piece of furniture.

INTRODUCING CLOUDS

DESIGN BY COLLECTIVO

云朵茶几设计线条简练，摒弃了繁复的装饰，强调“少即是多”的设计哲学。流畅的曲线边缘与抽象的轮廓，仿佛将天空中的云朵带入室内，传递出一种轻盈、自由的美学理念。融入无线充电功能，展现了现代科技的便捷与高效，让用户在享受艺术美感的同时，也能感受到科技带来的便利。

With clean lines and a minimalist approach, the design adheres to the "less is more" philosophy. Building In The Building

圆形洽谈桌的设计灵感来源于现代主义建筑中“几何纯粹性”与自然材质的诗意对话。

The design inspiration for the Handy table originates from a poetic dialogue between "geometric purity" in modernist architecture and the tactile essence of natural materials.

HANDY

INTRODUCING HANDY

DESIGN BY COLLECTIVO

设计师以极简的圆形语言打破空间界限，水磨石台面以天然肌理演绎时光沉淀的韵律，金属支架具有工业美学构筑悬浮视觉。

The designer's minimalist circular vocabulary transcends spatial constraints, while the terrazzo surface weaves a tactile narrative of nature's timeless rhythm through its organic veining. Anchored below, the metallic framework crafts a levitating illusion of industrial precision through its angular geometry.

这种方圆之间的设计哲思，传承了包豪斯“形式追随功能”的精髓。

This design ethos, navigating the dialectic between circular fluidity and angular rigor, inherits the Bauhaus doctrine of "form follows function" in its purest incarnation.
